Bio-Heat Composter

With a generous 110L capacity, its thermal insulation structure conserves heat, leading to a rapid breakdown of waste material all year round. A vertical ventilation system provides the optimum conditions while an automatically activated carbon filtration system helps eliminate unpleasant odours. Monitor the internal temperature with the thermometer - the higher the temperature, the faster waste material is breaking down.

Dimensions: H112 x W10 x L10cm. Despatch: within 24 hours.
